

## Bold as Brass - Casamilano

Brass and bronze are enjoying a revival as demand grows for a warmer less clinical décor.

*"We are really loving this move away from chrome giving us the opportunity to use these new tones and textures in our latest projects, enhancing rooms with new subtle effects that further enable us to create some of our most beautiful home."* Mark Riese, creative director urban living interiors. *"I predict the next move will be bronzed wood."*

Below are key pieces from the Casamilano collection launched at Milan's Salone Internationale del Mobile 2015. Casamilano is stocked exclusively in the UK by urban living interiors
